## **DETAILED ACTION**

Claims 1-12 have been examined and are pending.

### ***Information Disclosure Statement***

An initialed and dated copy of Applicant's IDS form 1449, Paper Filed 1-12-01, is attached to the instant Office action.

### ***Claim Rejections - 35 USC ' 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Hayes et al, hereinafter Hayes (USP 6,339,826).

As per claims 1, 5, and 9, Hayes teaches a display device having a screen for displaying images (Fig 1); and

a security application defining a list of security rules for locking down resources of said computer system (column 19, lines 50-55), said security application configured to categorize said rules into a plurality of categories (column 19, lines 55-67) and to display at least one of said categories on said screen (Fig 17), said security application configured to determine which of said rules are associated with said one category in response to a selection of said one category by a user of said computer system (column 19, lines 57-60), said security application configured to display on said screen each of said rules associated with said one category in response to said selection (column 19, lines 60-62), said security application further configured to allow said user to enable ones of said rules and to cause said computer system to enforce said enabled ones of said rules by modifying a machine state of said computer system (column 20, lines 1-5).

As per claims 2, 6, and 10, Hayes teaches memory storing various computer applications (column 18, lines 35-36), and wherein said security application is further configured to determine which computer applications are stored in said memory and to display said categories based on a determination by said security application as to which computer applications are stored in said memory (column 18, lines 43-45).

As per claims 3, 7, and 11, Hayes teaches one category is displayed on said screen by said security application in response to a selection of another category by said user (column 18, lines 27-30).

As per claims 4, 8, and 12, Hayes teaches one category is a sub-category of another of said categories (column 18, lines 27-30).
